OBJECTIVE

Full Stack Developer experienced in the **MERN stack** ("MongoDB", "Express.js", "React.js", "Node.js") with a proven ability to build scalable web applications. Seeking to leverage my technical skills and knowledge in a challenging developer role to drive business success

PROFESSIONAL EXPERIENCE

MERN Developer, Aarvy Technologies

- **Feb 2024 - Oct 2024**
  - Developed full-stack web applications using the **MERN stack** (MongoDB, Express.js, React.js, Node.js).
  - Built and managed admin panels using Redux for state management, integrating with **REST APIs**.
  - Collaborated with cross-functional teams to develop efficient, scalable solutions.
  - Ensured code quality through continuous integration and **code review**s.
  - Implemented user authentication using **JWT** for secure access to web applications.

FRONT-END DEVELOPER, Rucha Infotech Ltd

- **March 2023 - August 2023**
  - Designed and implemented responsive, interactive front-end web pages using "**HTML**", "**CSS**", and "**JavaScript(JS)**"
  - Collaborated with UX/UI designers to transform wireframes into functional and aesthetically pleasing interfaces.
    Ensured cross-browser compatibility and responsive design using "**Bootstrap**" and Tailwind "**CSS**".
    Used version control systems like "**Git**" for efficient code management and collaboration within teams.

INDUSTRY PROJECTS

ARCHIKA DIDI Project

https://drarchikadidi.com/

A comprehensive web application developed for a health and wellness client.

- **Technology Stack**: MERN ("MongoDB", "Express.js", "React.js", "Node.js"), Redux, REST APIs, Bootstrap, Material UI.
- **Key Features:**
  - **Admin Panel**: Built with "**Redux**" for state management, allowing content updates and user management.
  - **Responsive Design**: Leveraged "**Bootstrap**" for a modern, mobile-responsive UI.
  - **Data Fetching**: Implemented "**Axios**" for fast API data fetching, ensuring a smooth user experience.
  - **Role Management**: Admin features enable content moderation and user permissions, secured through **API** integration.

knowledge Tribe

https://knowledge.tribal.gov.in/
- High-performance web application for socio-economic initiatives.
- Responsive, mobile-first design implemented with CSS and media queries.

PERSONAL PROJECT

Restaurant-Backend

- Developed a backend application using Node.js, Express.js, and MongoDB.
- Created secure REST APIs for restaurant operations.
- Implemented authentication and authorization mechanisms.
- Built a structured routing system for handling various endpoints.

Bootstrap Food Project

- Developed a food website using Bootstrap for a fully responsive layout.
- Designed an interactive UI with a focus on user engagement.
- Integrated modern design patterns to enhance visual appeal and accessibility.

E-commerce Multi-Vendor Platform

https://s-martweb.vercel.app/

A multi-vendor e-commerce platform that supports multiple vendor admins and a super admin for product and order

Technology Stack: MERN (MongoDB, Express.js, React.js, Node.js), Nodemailer, Cron Jobs, Payment Gateway Integration.

- **Key Features:**

  - **Super Admin Panel**: Allows the super admin to manage all vendor activities, users, and product categories.
  - **Vendor Admin Panel**: Each vendor admin can manage their own products, orders, and transactions.
  - **User Side**: Customers can browse products, place orders, and make payments securely via an integrated payment gateway.
  - **Email Notifications**: Automated order confirmation and shipping emails using Nodemailer.
  - **Automated Tasks**: Cron Jobs automate routine tasks such as inventory updates and payment processing.

SKILLS

HTML	JavaScript		
CSS	React JS	Node JS	Redux
CSS frameworks (Bootstrap,	Express Js	GIT, Github	Rest Api's
Tailwind CSS, Material UI, etc.)	MongoDB		

Languages & Libraries: JavaScript, React.js, Node.js, Express.js
Database: MongoDB
Front-End: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Material UI
Tools & Technologies: Git, GitHub, REST APIs, Redux, Axios, Nodemailer, Cron Jobs

Additional Skills: WordPress,
- LinkedIn Marketing: Creating audiences and starting campaigns
